Akhlaq Hossain Jim

Front-End Developer | Traveler | Curious Soul
Dhaka

Summary

I'm a self-thought Front-end Developer with 2 years of experience with JavaScript, HTML, CSS, SCSS/SASS, Styled-Components, and React.js.

UX designer(learning). I'm passionate about Human interaction and Psychology. I'm hungry to learn new things and from every single setback.

In my personal life, I look at things and try to analyze them to solve or think, how that could be different in a positive way and what I can learn from it. I've worked on different kinds of projects, small to large challenging projects to embrace my skills. No matter what I do, I am very invested. And in every moment, I'm growing.

Experience

AlphaProMed
Frontend Developer
August 2021 - Present (4 months)
Remote

1. Convert Wireframe/Mockup to actual design with "pixel perfect" accuracy
2. Optimize applications for maximum speed
3. Determining the structure and design of web pages
4. Design mobile-based features
5. Ensuring user experience determines design choices
6. Design and developed responsive design for all the resolutions
7. Collaborate with back-end developers and web designers to improve the usability
8. Write functional requirement documents and guides
9. Building reusable code for future use
10. Utilizing a variety of markup languages to write web pages
11. Create quality mockups and prototypes

12. Understand client/owner requirements and implement as same as in the requirement
13. Help back-end developers with coding and troubleshooting
14. Maintaining brand consistency throughout the design.
15. Ensure high-quality graphic standards and brand consistency
16. Stay up-to-date on emerging technologies
